

Assimp::IOStreamBuffer
::open

Assimp::TXmlParser
::parse

Assimp::IOStream::FileSize

```
graph LR; A[Assimp::IOStreamBuffer::open] --> C[Assimp::IOStream::FileSize]; B[Assimp::TXmlParser::parse] --> C;
```

The diagram illustrates a data flow or dependency. On the left, there are two white rectangular boxes. The top box contains the text 'Assimp::IOStreamBuffer' followed by '::open' on a new line. The bottom box contains 'Assimp::TXmlParser' followed by '::parse' on a new line. On the right, there is a gray rectangular box containing the text 'Assimp::IOStream::FileSize'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions depend on or interact with the 'Assimp::IOStream::FileSize' variable.
