

Stable extensions

GLM_EXT_quaternion
_float_precision

```
graph RL; A[GLM_EXT_quaternion_float_precision] --> B[Stable extensions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'GLM_EXT_quaternion_float_precision' in two lines. The box on the left is white with a black border and contains the text 'Stable extensions'.
