

`glm::packF2x11_1x10`

```
graph LR; A[glm::packF2x11_1x10] --> B[glm::detail::floatTo11bit]
```

A diagram showing a mapping from the function `glm::packF2x11_1x10` to the function `glm::detail::floatTo11bit`. The first function is in a white box, and the second is in a gray box, connected by a blue arrow.

`glm::detail::floatTo11bit`
