

Assimp::Logger

```
graph BT; A[Assimp::DefaultLogger] --> B[Assimp::Logger];
```

The diagram illustrates a class hierarchy. At the bottom is a grey rectangular box labeled 'Assimp::DefaultLogger'. Above it is a white rectangular box labeled 'Assimp::Logger'. Three blue arrows originate from the top edge of the 'Assimp::DefaultLogger' box and point upwards to the bottom edge of the 'Assimp::Logger' box, indicating that 'Assimp::DefaultLogger' inherits from 'Assimp::Logger'.

Assimp::DefaultLogger
