

`glm::decompose`

`glm::isdenormal`

`glm::epsilonNotEqual`

```
graph LR; A[glm::decompose] --> C[glm::epsilonNotEqual]; B[glm::isdenormal] --> C;
```

The diagram illustrates a dependency or relationship between three components. On the left, there are two white rectangular boxes with black borders. The top box contains the text `glm::decompose` and the bottom box contains `glm::isdenormal`. Two blue arrows originate from the right side of these boxes. The arrow from the top box points to the top-left corner of a gray rectangular box on the right. The arrow from the bottom box points to the top-left corner of the same gray box. The gray box contains the text `glm::epsilonNotEqual`.
