

Experimental extensions

GLM_GTX_matrix_cross
_product

```
graph RL; A[GLM_GTX_matrix_cross_product] --> B[Experimental extensions];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the right is gray and contains the text 'GLM_GTX_matrix_cross_product' in two lines. The box on the left is white with a black border and contains the text 'Experimental extensions'. A black arrow points from the right box to the left box.
