

glm::lerp

glm::mix

glm::detail::compute  
\_mix::call

```
graph LR; A[glm::lerp] --> B[glm::mix]; B --> C[glm::detail::compute_mix::call];
```

The diagram illustrates a three-step call sequence. It begins with a grey rectangular box containing the text 'glm::lerp'. A blue arrow points from this box to a white rectangular box containing 'glm::mix'. A second blue arrow points from the 'glm::mix' box to a larger white rectangular box containing 'glm::detail::compute' on the top line and '\_mix::call' on the bottom line. All boxes have a thin black border.
